tionship between chemistry and matter. You will recognize how sci-entific methods can be used to solve problems. You will distinguish between scientific research and technology. Why It ' s Important You, and all the objects around you, are composed of matter. By studying matter and the way it changes, you will gain an understanding of your body

## ~~Chapter 1: Introduction to Chemistry~~

The physical world is made of atoms and molecules. Even large objects can be viewed as a combination of small particles. Energy causes particles to move and interact physically or chemically. Those interactions create a variety of substances. As molecules undergo a chemical or physical change, the number of atoms in that system remains constant.
