The Erechtheion (or Erechtheum) is an ancient Greek temple constructed on the acropolis of Athens between 421 and 406 BCE in the Golden Age of the city in order to house the ancient wooden cult statue of Athena and generally glorify the great city at the height of its power and influence. The Erechtheion has suffered a troubled history of misuse and neglect, but with its prominent position ...

Erechtheion - Ancient History Encyclopedia

Erechtheum, ionic temple of Athena, built during 421–405 bc on the Acropolis at Athens, famous largely for its complexity and for the exquisite perfection of its details. The temple's Ionic capitals are the most beautiful that Greece produced, and its distinctive porch, supported by caryatid
