Oracle Application Framework Personalization Guide

OA Personalization Framework uses custom style sheets (.xss files) to specify and manage the visual styles of the Look-and-Feel of applications built with OA Framework. One of the goals of custom style sheets is to allow presentation styles, such as fonts and colors, to be separated from the HTML content to which the styles are applied.

Oracle Application Framework Personalization Guide

Personalization. OA Framework was designed with durable personalization capabilities. Durability of OA Framework personalization is largely attributed to the declarative architecture and the object-oriented approach underlying the implementation. Declarative UI component definitions are stored in the form of meta-data in a database repository.

This publication aims to tell the story so far about the personalisation of adult social care services. It is intended to be a 'rough guide', exploring what personalisation is, where the idea came from and placing the transformation of adult social care in the wider public service reform agenda. It explains some of the basics and examines what personalisation means for different social care stakeholders and for the sector as a whole.
