Personally, I used this text both as a quick reference and during times of study for Econometrics and time-series forecasting. In terms of Johnston & Dinardo's use of the literature, I felt they made very good use of books and journals. They also include some applied material to complement the theory.

J.Johnston & J.DiNardo – Econometric Methods. In addition, the authors include in an appendix a review of all relevant topics in matrix algebra. Includes data disk.

J.Johnston & J.DiNardo – Econometric Methods

This is really a great "jump" from the last edition of Econometric Methods by J. Johnston (1984) (the one I use when I was an undergraduated student). Now, I use this book to teach an undergraduated course of Econometrics at Catholic University (PUCP). My students use it a lot and also think its WONDERFUL!
