Samenvatting Management Accounting

Definition and history Management

accounting is the process of supplying the managers and employees in an organization with relevant information, both financial and nonfinancial, for making decisions, allocating resources, and monitoring, evaluating, and rewarding performance. It is retrospective, reporting and summarizing in financial terms the results of past decisions and transactions.

accounting. Management accounting is not restricted by the accounting principles that apply to financial reporting. While the work of management accountants and financial accountants depends on the organization, some broad differences generally exist: regulations, range and detail of information, reporting interval, and time period.
