There has been a transition in the method used by medical schools to test the knowledge base and clinical acumen of medical students with the adoption of extending matching questions (EMQs) and more recently the single best answers (SBAs) question format. EMQs and SBAs overcome the ambiguity that occurs in multiple

Each correct answer is awarded 1 mark. Incorrect answers are not penalised: each incorrect answer is awarded 0 marks. It is in your best interests to ensure you fill in one lozenge for each of the EMQs by the end of the exam. If you mark 2 or more lozenges on the same question, 0 marks will be awarded, even if one of your answers is correct.

complex understanding is tested. Close comparison in trials

EMQs: a new component of the MRCOG Part 2 exam

Evidence suggests that this format works best when there is a single best answer to each successive scenario or vignette. Other variants. There are some instances where EMIs do not follow the evidence based format. These other uses of the term have been criticised as they do not apply the key principles of the EMQ as stated above.
