is one of the most complex yet under-researched topics in coffee. The literature is sparse, much of the science is ancient, and our industry assumptions have been vast.

~~Coffee Brewing – Wetting, Hydrolysis & Extraction Revisited~~

In essence, the brewing control chart provides a graphical representation of strength, extraction and brew formula in an easy to read format. By measuring the soluble solids from brewed coffee relative to its brew formula, the CBC was able to graphically represent "solubles yield" given the amount of coffee to water ratio.
