necrotic tissue." Common forms of ulcers recognized in medicine include:

Ulcer - Wikipedia

Stomach ulcers are sores in the lining of the stomach or small intestine. They occur when the protective mucus that lines the stomach becomes ineffective. The stomach produces a strong acid to help...

Stomach ulcers: Causes, symptoms, and treatment

Stomach ulcers (gastric ulcers) are open sores that develop on the lining of the stomach. Ulcers can also occur in part of the intestine just beyond the stomach. These are called duodenal ulcers. Stomach and duodenal ulcers are sometimes called peptic ulcers.

Stomach ulcer (Gastric ulcer) | NHS inform

A leg ulcer is simply a break in the skin of the leg, which allows air and bacteria to get into the underlying tissue. This is usually caused by an injury, often a minor one that breaks the skin. In most people such an injury will heal up without difficulty within a week or two.

susceptible to mouth ulcers, but the...

Mouth ulcers: symptoms, causes, treatment and prevention

A leg ulcer is a break in the skin below the knee which has not healed within 2 weeks. A venous leg ulcer occurs in the presence of venous disease and is the most common type of leg ulcer, accounting for 60-80% of cases. It typically occurs in the gaiter area of the leg (from the ankle to mid-calf).

Leg ulcer - venous | Topics A to Z | CKS | NICE

A foot ulcer is an open sore on the foot. A foot ulcer can be a shallow red crater that involves only the surface skin. A foot ulcer also can be very deep. A deep foot ulcer may be a crater that extends through the full thickness of the skin.

Foot Ulcers Guide: Causes, Symptoms and Treatment Options

Peptic ulcers are sores that can develop in your gastrointestinal tract (GI tract), including your stomach, and usually happen when stomach acid damages the lining of your stomach and GI tract. How a peptic ulcer develops Peptic ulcers are ulcers of the stomach and small bowel.

Peptic ulcers | Health Information | Bupa UK
Mouth ulcers are painful areas in the mouth and gums. They are also known as canker sores. While mostly harmless, mouth ulcers can be extremely uncomfortable and make it difficult for some people...

Mouth ulcers: Types, causes, symptoms, and treatment

A stomach or gastric ulcer is a break in the tissue lining the stomach. The term 'peptic ulcer' refers to those that occur in either the stomach or the first part of the small intestine that leads out of the stomach, called the duodenum. It was once commonly thought that stress, smoking and diet were the principal causes of stomach ulcers.
